

SIROMER Equipment

Your Tractor's Best Friend

SIROMER ROTOVATOR

Designed to prepare a seed bed from previously worked soil.

Dig depth is adjusted by use of skids.

Semi offset to cover wheel tracks.

Gear driven by oil immersed and heavy duty wide precision ground spur gears.

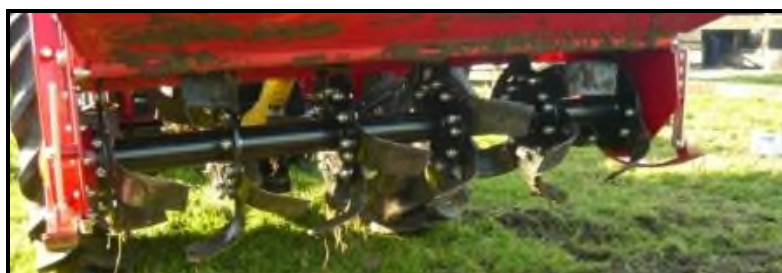

Adjustable safety flap giving a smooth finish.

Comes complete with shear pin PTO shaft.

Fits most industry standard CAT I linkages.

A useful prop stand keeps the machine steady whilst not mounted.

MODEL	DIMENSIONS	STRUCTURE WEIGHT	TILLING WIDTH	TILLING DEPTH	PTO SPEED	POWER REQUIRED
